

SABIKA LATIF

Software Quality Assurance Engineer | SQA Team Lead

+92 309 5945909 • Sabikalatif2@gmail.com • Portfolio • LinkedIn • Rawalpindi / Islamabad, Pakistan

SUMMARY

Results-driven SQA Team Lead and Quality Assurance Engineer with 2+ years of experience spearheading end-to-end testing across Android, iOS, and web platforms. Skilled in building test automation frameworks using Antigravity and executing comprehensive manual, API, and UI testing with tools like JIRA, GitLab, and Postman. Proven track record of leading QA initiatives, streamlining CI/CD testing workflows, mentoring teams, and ensuring high-standard product releases in fast-paced Agile environments.

EXPERIENCE

Zeesofttech

Islamabad, Pakistan

SQA Team Lead | Senior SQA Engineer

10/2024 – Present

- Lead end-to-end QA operations across Android, iOS, and web platforms, managing test planning, defect lifecycles via JIRA/GitLab, and team mentorship to ensure reliable releases.
- Developed automated test suites using the Antigravity framework to streamline application workflows and significantly reduce manual regression time.

Zeesofttech

Islamabad, Pakistan

Software Quality Assurance Engineer Intern

05/2024 – 10/2024

- Authored and executed structured test plans, scenarios, and bug reports across native Android and iOS apps, performing functional, regression, UI/UX, and Postman API testing.
- Tracked and prioritized defect lifecycles via JIRA and GitLab, analyzing quality metrics and collaborating with cross-functional teams to streamline sprint releases.

Terasharp

Remote

Cross-Platform Mobile Application Developer

11/2023 – 04/2024

- Developed and maintained responsive cross-platform mobile applications for Android and iOS using Flutter and Dart, integrating RESTful APIs for seamless backend synchronization.
- Collaborated with UI/UX designers and backend engineers to optimize app performance, resolve critical bugs, and deliver stable, high-quality releases.

Terasharp

Remote

Software Design & Engineering Intern

08/2023 – 10/2023

- Participated in architectural discussions, requirements gathering, and rapid prototyping for multi-tier client software solutions.
- Contributed to core feature implementation, routine debugging, and baseline functional testing to guarantee code stability prior to staging deployments.

EDUCATION

International Islamic University

Islamabad, Pakistan

Bachelor of Science in Software Engineering (BS SE)

2018 – 2022

TECHNICAL SKILLS & TOOLSET

Testing Methodologies: Software Quality Assurance, Functional Testing, Regression Testing, Non-functional Testing, System Testing, Retesting, User Acceptance Testing (UAT), Sanity & Smoke Testing, SDLC & STLC.

Mobile QA & Automation: Mobile Testing (iOS & Android), Antigravity Test Automation Framework, In-App Purchases (IAP) Audits, Robo Testing, Python, Flutter & Dart.

API & Defect Management: REST API Testing, Postman, JIRA, TestRail, GitLab, GitHub, Sourcetree, SQL, SQLite Database, Microsoft Excel.

KEY VERIFIED MOBILE PROJECTS (APP STORE & GOOGLE PLAY)

AI Math Solver & Scanner App SQA Engineer (OCR Vision & REST API QA) - Conducted end-to-end QA across iOS and Android, validating camera OCR recognition accuracy, AI solution precision, and equation scanning workflows. - Verified RESTful APIs via Postman, audited in-app purchase and subscription flows on App Store and Google Play, and logged defects in GitLab. - Performed performance and regression testing to optimize memory usage, solve edge-case latency, and ensure cross-device UI stability.	iOS & Android Store Published
AI Voice Typing Keyboard SQA Engineer (Test Automation & Speech QA) - Developed automation test scripts using the Antigravity framework to validate multilingual keyboard layouts, character mappings, and automated UI workflows across Android devices. - Executed end-to-end QA for voice recognition accuracy across accents, real-time speech-to-text latency, and cloud-based AI text generation APIs via Postman. - Validated background service stability, memory consumption during prolonged audio streaming, and defect lifecycles using JIRA and GitLab.	Android Store Published
Advanced English Dictionary & Voice Translator SQA Engineer (Data Persistence & Audio QA) - Executed functional and regression testing across core modules including offline local SQLite database lookups, camera text extraction, and multilingual translation workflows. - Validated audio playback speed controls, home screen widget synchronization (Word of the Day), and bookmarking search history data persistence. - Tested monetization flows including in-app purchases (monthly/yearly subscriptions, ad removal) and handled cross-device layout validation on iPhone and iPad.	iOS & Android Store Published
Pronounce & Spell Checker AI SQA Engineer (Phonetic Voice & Compliance QA) - Validated core speech recognition (STT) and text-to-speech (TTS) playback quality, ensuring accurate pronunciation rendering and latency across diverse accents. - Executed end-to-end testing for OCR camera scanning, offline/online dictionary queries, and live two-way voice translation APIs using Postman. - Performed compatibility and compliance testing across iOS versions, validating App Tracking Transparency (ATT), GDPR consent flows, and in-app purchase subscriptions.	iOS Store Published

ACADEMIC EXPERIENCE

International Islamic University Teaching Assistant Course Instruction Support: Supported university instructors for Social Media Marketing and Technical Writing courses during on-site classes. Assignment & Exam Grading: Reviewed and graded student technical projects, quizzes, and writing tasks with detailed constructive feedback. Student Mentorship: Assisted students in mastering core technical communication, project documentation, and marketing strategies during dedicated office hours.	Islamabad, Pakistan 02/2023 – 07/2023
