PROFESSIONAL SUMMARY

Results-driven SQA Team Lead and Quality Assurance Engineer with 2+ years of experience spearheading end-to-end manual and automated testing across 15+ live mobile applications on the Apple App Store and Google Play Store. Proven expertise in building test automation suites with the Antigravity framework, verifying RESTful APIs via Postman, and managing defect lifecycles and sprint releases in JIRA and GitLab. Background in Flutter mobile development providing deep insight into root-cause bug analysis.

CORE TECHNICAL COMPETENCIES

- **Testing Methodologies:** Mobile Testing (iOS & Android), Manual & Functional QA, Regression, Exploratory, UI/UX, Test Planning, Defect Lifecycle, IAP Monetization Apps, API & Backend Testing, REST API Verification, Postman, JSON Schema Validation, Status Codes, SQLite Data Integrity
- **Automation & CI/CD:** Antigravity Test Automation Framework, Automated Regression Suites, UI Workflow Automation
- **Tools & Development:** JIRA, GitLab, Git, TestFlight, Xcode, Android Studio, Flutter & Dart, Agile / Scrum Leadership

WORK EXPERIENCE

SQA Team Lead | Senior SQA Engineer

10/2024 – Present

Zeesofttech — Islamabad, Pakistan

- %aLead end-to-end QA operations across iOS, Android, and Web platforms, supervising test planning, sprint releases, and defect triage in JIRA and GitLab.
- %aEngineered automated test suites using the Antigravity framework for multilingual keyboard and UI workflows, significantly reducing regression test execution time.
- %aSpearheaded release sign-offs for 15+ live applications published on the Apple App Store and Google Play Store.
- %aConducted REST API testing via Postman to validate cloud AI text endpoints, payload schemas, and response integrity.

Software Quality Assurance Engineer Intern

05/2024 – 10/2024

Zeesofttech — Islamabad, Pakistan

- %aAuthored detailed test plans, test scenarios, and bug reports for native Android and iOS applications.
- %aExecuted functional, regression, UI/UX, and Postman API tests across OCR scanning, audio transcribing, and subscription monetization modules.
- %aCollaborated directly with developers to reproduce, track, and verify resolution of high-severity edge-case defects.

Cross-Platform Mobile Application Developer

11/2023 – 04/2024

Terasharp — Remote

- %aDeveloped responsive mobile applications for Android & iOS using Flutter and Dart with RESTful API backend integrations.
- %aAssisted in code debugging, unit testing, and resolving cross-platform UI/state synchronization issues.

KEY VERIFIED MOBILE APPLICATIONS (STORE PUBLISHED)

- **AI Math Solver & Scanner App (iOS & Android):** Validated camera OCR equation parsing accuracy, bounding box precision, Postman APIs, and in-app subscriptions.
- **AI Voice Typing Keyboard (Android):** Built Antigravity automated test scripts for multilingual soft keyboards, speech-to-text latency, and IME services.
- **Pronounce & Spell Checker AI (iOS):** Executed comprehensive QA on phonetic voice STT/TTS engine, OCR text recognition, and iOS consent flows.
- **Advanced English Dictionary & Voice Translator (iOS & Android):** Tested offline SQLite database synchronization, audio pronunciation speeds, and home screen widgets.

EDUCATION

Bachelor of Science in Software Engineering (BS SE)

2018 – 2022

International Islamic University — Islamabad, Pakistan
